IN ORDER OF BATTLE

The Greeks Stand Waiting For the Turks.

A DECISIVE CONFLICT EXPECTED.

It Will Take Place at Pharsalos The Town Already Abandoned in Fear of a Turkish Attack—War Preparations Going on in Turkey—Still Rumors of the Powers Interfering.

ATHENS, May 3.—A dispatch from Lamia says: For the past 24 hours the whole body of Greek troops near Pharsalos and Domokos, has been drawn up in order of battle, but there has been no fighting.

The inhabitants of Pharsalos have abandoned the town in fear of a Turkish attack, and an exodus has begun from Domokos in the direction of Lamia, the refugees pitching their tents in the open country on the ground.

It is believed that the decisive conflict will be fought at Pharsalos, and probably tomorrow.

There are numerous indications that the Ralli ministry intends to assume greater direct military and naval control, and no longer divide the responsibility between the ministry and the court.

The news of the victory at Velestino has increased General Smolenki's popularity, and he is now regarded as the real hero of the campaign. A foreign officer who saw the fight says that the Turks numbered 3,000 and the Greeks 8,000.

It is reported the island of Mitylene, off the coast of Asia Minor, has revolted in favor of Greece and that the Greek fleet will be sent there forthwith.

A dispatch from Colonel Manos explaining the retreat of the Greek forces in Epirus, says that the morale of the army was somewhat affected by the news of the retreat from Larissa. The entire loss of the Greeks in Epirus is estimated at 200.

Reports are current here that the powers are about to mediate between Greece and Turkey. The Italian and Austrian ministers have had a long interview with M. Ralli and M. Scouloudis.

NO PROSPECTS OF PEACE.

War Preparations Going on in Turkey With Unabated Vigor.

CONSTANTINOPLE, May 3.—War preparations go on with unabated vigor. Two commissions composed of officials of the ministries of public works and of war have been formed for the purpose of inspecting railways and facilitating the dispatch of troops to the frontier.

It has been decided to extinguish the torches in all the lighthouses on the Gulf of Smyrna as far as Karaburun during the continuation of the war.

It is officially announced that the Greek residents in Turkey may become naturalized as an alternative to leaving the country. This will be compulsory for all Greeks of Sicily employed in Turkey.

The porto has undertaken to provide guards for the protection of the American missions in Asia Minor, and has promised that these shall not be removed without the consent of the American legation.

EPIRUS INVADED.

For the Third Time the Greeks Have Occupied Philippiada Without Fighting.

ARTA, May 3.—After remaining inactive for two days the Greek troops re-invaded Epirus. The Sixth regiment advanced and occupied Philippiada for the third time without fighting.

The Turks are still at Pentepigadia and Imart has been fortified, the military bridge over the river Arta (Arachth) having been destroyed.

The streets of Arta present a strange scene, with the continuous exodus of citizens and the steady incoming of the peasantry, who camped out in the streets, around fires with thousands of sheep and cattle.

TROOPS REVIEWED.

Headquarters of the Greek Army Will Be Transferred to Vomokos.

LONDON, May 3.—The Athens correspondent of The Standard says: The ministers of war and of the interior arrived at Pharsalos at noon Sunday and immediately reviewed the troops. It was stated that headquarters will be transferred to Vomokos.

Thus far the Turks have captured, it is estimated, war material and provisions of the value of 4,500,000 drachmas.

It is reported that as the result of the queen's letter to the czar, Russia will intervene in favor of Greece.

PANIC INCREASING.

Communication With Volo Still Remains Uninterrupted.

LONDON, May 3.—The correspondent of The Times at Volo says: "Communication with Volo still remains uncut. Locomotives have pushed out a short distance toward Larissa, and they report that the line is apparently little damaged. The authorities are distributing rifles and bayonets to civilians indiscriminately, thus increasing the panic."

"The British warship Dryad has arrived here and reports that she sighted the main body of the Greek fleet off the Island of Skiathos."

HAS GREECE GIVEN UP?
One of the King's Staff Says That All Hope Has Been Abandoned.

LONDON, May 3.—Captain Rabbel of King George's staff has wired here from Athens that the right wing of the Greek army has repulsed the Turks, but that the left wing had retreated behind the old frontier line to avoid being circumvented. Captain Rabbel adds:

"The Greek army in Epirus, after defeat at Pentepigadia, has retired to Arta. All hope of continuing the war is now virtually abandoned. The fleet has returned to Volo for the protection of the inhabitants."

England's Proposal Fails.

LONDON, May 3.—It is semi-officially stated that Lord Salisbury's proposal to the powers for a conference at Paris to discuss measures, with a view of ending the war between Turkey and Greece, has already been under consideration for several days at the various foreign offices and may now be considered definitely abandoned.

GREEK JOAN OF ARC.

A Nineteen-Year-Old Girl Going to the Front to Fight.

LONDON, May 3.—The correspondent of The Daily Telegraph at Athens has had an interview with Helen Constantinides, the 19-year-old girl who is about to start for the front at the head of a band of irregulars. She is an excellent shot. Her brother will accompany her. Both of them are bitterly anti-dynastic. She declares that she will fight in the front rank and has no fear of death.

Her departure last night was witnessed by thousands of enthusiastic Athenians who hail her as the Greek Joan of Arc.

Ismail Pasha Dissatisfied.

CANEA, May 3.—Ismail Pasha, governor of the island, has protested against the decision of the admirals allowing food to be supplied to inhabitants in the interior. He demands cessation of the blockade or its complete re-establishment.

American Volunteers For Greece.

PARIS, May 3.—Two hundred American volunteers for Greece arrived here and have gone on to Marseilles. They were all Greeks, and all wore ribbons bearing the inscription: "War, For Victory or Death."

PROGRAM OF CONGRESS.

The Senate Will Be Busy, But the House Will Not Do Very Much.

WASHINGTON, May 3.—The senate will resume business in earnest this week, and the week bids fair to be one of important results. According to agreement a vote will be taken on the arbitration treaty on Wednesday. It is also quite probable that the committee vacancies will be filled and that the tariff bill will be reported to the senate.

For the rest Senator Morgan probably will call up his Cuban resolution, the sundry civil appropriation bill may be passed, and Senator Hoar has given notice that he will move to have the committee on rules discharged from the further consideration of his amendment to the rules for the limitation of debates.

There is great uncertainty as to the fate of the treaty, and it now looks as if the margin would not exceed two or three votes whatever the result may be. There are a few unascertained votes which will decide the result. A canvas shows 40 votes certain for the treaty and 25 certain against it. Twenty-nine votes in opposition are sufficient to defeat it, but the opposition do not know just where these votes can be found. There will be considerable sparring over the treaty before the vote is taken, but no prolonged debate is expected.

The consideration of the sundry civil appropriation bill has been postponed until Senator Allison who will have charge of it in the senate could be present.

If Senator Hoar fulfills his promise to bring up the question of the amendment of the rules, his motion will be stubbornly resisted by the Democrats. Those of them who favor the changes proposed will not assent to them on the eve of the tariff fight.

The new senator from Kentucky, Hon. W. J. Deboe, probably will be sworn in early in the week.

The house program contemplates adjournment for three days, from Monday to Wednesday. Should the conference report on the Indian appropriation bill reach the house it will be considered.

A suggestion to take action in the bankruptcy bill, passed by the senate, is being thought over and may reach some definite shape before the close of the week.

RAIN AND SNOW.

Considerable Damage Has Been Done All Through the Ohio Valley.

CINCINNATI, May 3.—Considerable snow fell here yesterday and throughout southern Ohio. At several points the boys were reported as enjoying the unusual sport of playing snowballs in May.

The temperature is so low that much damage has been done throughout the Ohio valley. Proceeding the snow, there was a constant fall of rain for 24 hours. The Ohio river and all its tributaries are rising rapidly.

Snow All Through Ohio

CLEVELAND, May 3.—Dispatches from towns in the interior of the state say that the rain of Saturday night turned into snow, and in many places wintry conditions prevailed all day yesterday. At Bucyrus three inches of snow fell, and at Martin's Ferry, in the southeastern part of the state, the ground was covered with it.

BIG FIRE IN PITTSBURG

The Loss Will Exceed Two Million Dollars.

SEVERAL BIG BUILDINGS BURNED.

It Was the Most Destructive Conflagration That Has Visited That City Since the Memorable One in 1845—Great Difficulty in Fighting the Flames and Several Firemen Injured.

PITTSBURG, May 3.—The greatest fire that has visited this city since the memorable one of 1845, started this morning shortly after midnight in the immense wholesale grocery establishment of Thomas C. Jenkins, Penn avenue and Liberty street and soon the three large blocks extending from Liberty to Penn avenue and from Fifth to Sixth streets were reduced to smoldering ruins. The loss will exceed \$2,000,000 and is well covered by insurance.

Among the buildings destroyed are Jenkins' wholesale grocery establishment, Horne's 6-story dry goods establishment, Horne's office building, the Duquesne theater and the Methodist Book Concern, Hall Brothers building, in which the American Press Association has its offices, and Lee S. Smith's dental establishment.

The fire started in the cellar of the Jenkins building in a pile of barrels filled with waste paper. The flames were discovered by Watchman William Hunter while making his rounds on the third floor. He had smelled smoke earlier in the evening, but believed that it came from the outside, and had paid no attention to it. The flames leaped rapidly up the elevator shaft and he made a vain attempt to extinguish the fire with buckets of water. An air draft, used to ventilate the great building, fanned the flames and he found it impossible to do anything. He made his escape from the building with great difficulty because of the immense volume of smoke. The alarm was turned in about the same time by Officer Milton Bailey, who noticed smoke issuing through the window.

The fire made rapid headway after it had started, and by 12:30 o'clock flames began to pour out the Penn avenue front. All the firemen of the city and Allegheny were summoned and the fire department fought bravely to check the progress of the conflagration. The fire, however, attacked the immense quantity of barreled oil, sugar, molasses and flour that this building contains, and by 12:45 o'clock the Penn avenue and Liberty avenue fronts were one mass of flames.

The fire ate its way so rapidly that the firemen narrowly escaped falling debris. Flames filled Penn avenue completely and shot into the air 200 feet or more, presenting one of the most magnificent sights seen for years.

The splendid buildings of Joseph Horne & Company, opposite, caught, and the firemen worked desperately to prevent its loss. At 1 o'clock the Horne building was burning from cellar to roof, and the flames had communicated to Horne's immense office building adjoining.

The structure was of stone and also six stories in height. It was occupied by W. P. Grier & Company, china dealers, Bon Marche Glove company, Shaman's carpet house and scores of physicians.

Huck's cigar factory and Hall Brother's building next fell victims to the fire fiend, and they were quickly followed by the Duquesne theater, Methodist Book Concern building and the Surprise clothing store. The latter was an immense factory building, running back a depth of 200 feet.

The fire was the most magnificent sight seen in Pittsburgh for years. When the Jenkins and Horne buildings had become enveloped in the conflagration, Penn avenue was one mass of flames and sheets of fire, with heavy columns of smoke were sent 200 feet into the air. The glare of the flames could be seen for miles and the streets for blocks around were brilliantly illuminated.

As soon as the fire attacked these buildings several streams of water were turned on them, but the water had no more effect than if it was not an extinguisher. The flames from the burning oil in the Jenkins building rolled out against them, and in five minutes the two beautiful Horne buildings were burning briskly. The firemen then left the Jenkins building to its fate and used their united and desperate efforts to save the Horne buildings. All the streams of water that could be summoned were turned on these buildings, but they were now one mass of fire. The fire department then turned their attention to the surrounding buildings, but the raging flames rapidly ate its way to all sides.

At 3 o'clock the fire was finally mastered, but was still burning with intense fury within the limits of the blocks bounded by Fifth street east and west, and Liberty and Penn avenues north and south.

A number of firemen were injured by falling walls and live wires, but none of them are seriously hurt. Fireman George Achison, who was one of three men in Cecil alley when the Jenkins wall fell, is missing, and is supposed to be under the debris. The names of other firemen hurt are Mike Daly, Elmer Crocaw, George Meekin, William Irwin, Robert Badger.

The individual losses as far as could be obtained are as follows: Horne & Company, dry goods and office building, with stock, \$1,600,000, covered by insurance in 100 insurance companies; T. C. Jenkins, \$200,000 on stock and \$200,000 on building; the Duquesne theater, \$50,000; Mayers' glove house, \$3,000; W. P. Grier & Company, \$10,000; Shaman's carpet house, the Methodist

Book Concern building, with tenants, probably \$50,000; Huck's cigar factory, \$2,000; Speer mansion, \$50,000; tenants of Horne office building, \$50,000. Small losses were sustained by J. D. Chantler, Beeson Paper company, Harmony creamery and Force & Briggs' Machinery Supply company.

In 500 Penn avenue, the Mollinger Remedy company occupied two floors, while the lower floor was Sweeney's millinery parlors. Jordan's millinery establishment and Dr. T. F. Baskerville occupied 502; Dr. Sykes, Dr. T. H. Swift and Miss M. J. Conlon, dressmaker, occupied 504; Mme Velma, millinery; M. E. Hart, dressmaking; Neill and Geis, manicure parlors, and M. E. Evans, infants' dress goods, occupied 506, which adjoined the Jenkins' block on Penn avenue.

ALBERT G. PORTER DEAD.

Another Ex-Governor of Indiana Has Passed Peacefully Away.

INDIANAPOLIS, May 3.—Albert G. Porter, ex-governor of Indiana and minister to Italy under General Harrison's administration, died at his home in this city shortly after 3 o'clock this morning, aged 74 years.

Two years ago the venerable man sustained a severe fall, and since then he has been confined to his room almost constantly. This affected him both mentally and physically, and of recent months his ailment was regarded as paresis.

A. G. PORTER

Mr. Porter was in his 74 year and has lived a retired life since the close of his work as minister to Italy, in 1893. He was a native of Indiana and practiced law until he was made reporter of the supreme court in 1888. After an official term of six years he returned to the law until 1877, when he was appointed first comptroller of the treasury by President Hayes.

He was in Washington in 1880 when he was nominated for governor, and returned to make one of the most remarkable campaigns in the history of the state. Maine had gone Democratic that year and his election in October was the first indication of Republican victory and was the occasion of a remarkable outburst of political feeling. He nominated General Harrison in the Chicago convention, and upon the election of General Harrison he was appointed minister to Italy.

FORGER LEWIS IN COURT.

An Effort To Be Made to Consolidate Thirty Indictments Into Two.

URBANA, O., May 3.—Z. T. Lewis, the bond forger, was arraigned before Judge Heiserman Saturday and pleaded not guilty. His bond was placed at \$80,000, in default of which he was remanded to jail.

A plea will be argued this week to quash one indictment on the grounds that it was signed by the court clerk instead of the foreman of the jury. An effort will also be made to consolidate 30 indictments and have Lewis tried on only two.

Lewis is in very poor health, and on the advice of physicians the hearing was held in private.

RIVER OVERFLOWED.

Thousands of Dollars of Destruction to Growing Crops of Pennsylvania.

HUNTINGTON, Pa., May 3.—The incessant rainfall of the past 24 hours has overflowed the Juniata river and its numerous tributaries, causing thousands of dollars of destruction to growing crops.

The farmers along the Raystown branch have suffered severe losses to buildings, fences and growing grains.

The Juniata river is 16 feet above low water mark and is still rising.

The body of an unknown Italian railroad laborer, who was knocked off a bridge 15 miles west of here, has just been recovered here.

FIVE PEOPLE KILLED BY A WATERSPOUT.

MONTICELLO, Ky., May 3.—On White Oak Creek, Tennessee, several miles from this town, a waterspout struck the farmhouse of a farmer named Branders, demolishing the house and killing the farmer, his wife and one child. Two farmhands who were sleeping upstairs were so badly mangled that they died in a few hours after the sheet of water struck the house. No further damage was done in the neighborhood so far as learned.

AN ENGINEER'S FATAL JUMP.

COLUMBUS, Ind., May 3.—While en route to a freight wreck at Jonesville yesterday in charge of a wrecking train from this city, Engineer Frank Wetzel was confronted with what he thought to be a fatal danger by the breakage of the right engine railing. He rushed to the left side of the cab and made a leap to the ground. His neck, right arm and thigh were broken.

INDICATIONS.—Showers, with warmer weather; northerly winds, becoming variable.

CONGRESSMAN PUGH insists on the Advisory Committee recommending some one for each of the various fourth class postoffices in this county. The Judge evidently doesn't want to get any fight on his hands.

A FRIEND of Dr. Hunter says he will be the next Governor, if he doesn't win his contest for Rhea's seat in Congress. Well, wouldn't the Brayleyites have a great time if Hunter should be nominated.

THE Philadelphia, Reading and New England Railroad Company made two cuts in the wages of its employees last month. Conductors and engineers were reduced 25 cents a day. Hurrah for General Prosperity and McKinley.

The Courier-Journal is still mad because the fifty odd Democratic Legislators didn't help the thirteen goldites elect a U. S. Senator. The efforts of the C. J. to show that the Democrats are responsible for the election of Dr. Deboe, the Republican nominee, are very amusing. Some one on the C.-J. must be badly rattled.

CAPT. J. C. BRYANT, of Ashland, was at the Attorney General's office to-day interceding in his own behalf for Marshal Blackburn's place. Capt. Bryant is tipped as the next Marshal for Kentucky.—Washington Special.

The Captain is a chronic office seeker. The principal cause of his leaving the Democratic party was his failure to get something, and if the Republicans don't give him some of the pie, it's hard to tell just where he will land next.

DURING the last eight months the exports of breadstuffs and provisions from the United States amounted in value to \$233,835,166. In the same period the imports of breadstuffs and provisions amounted in value to \$1,349,025. But the farmers are told that it is necessary to screw up the tariff in order to protect these enormous exports of breadstuffs and provisions from the trifling competition of Europe as exhibited in the above imports!

Of course Dr. Hunter will pay the expense of the session of the Kentucky Legislature up to Thursday night out of his own pocket. It would be asking too much of the people of Kentucky to expect them to foot the bill incurred by the gratification of his personal vanity. Besides, it only cost a thousand dollars a day, and the glory Dr. Hunter got out of it ought to be cheap at that price. He will probably never be a great man for so long a period again if he should live a hundred years.—Evansville (Ind.) Courier.

What about Governor Bradley? He and his friends are the individuals who are responsible for all this trouble and expense. The idea of Hunter or anyone else superseding him as boss of the Kentucky g. o. p. was galling. The Governor was insanely jealous of Hunter, talked of resigning and worked every other bluff he could to down his party's nominee, and finally, through his tools, did succeed in forcing the doctor out of the contest. If anybody is to foot the bill, Bradley is the individual.

NOW THINK OF THIS!

Hon. Busy Bill Lyons, Anti-Bradleyite, To Be Deboe's Private Secretary.

FRANKFORT, KY., May 1.—The astonishing announcement is semi-officially made that Hon. Bill Lyons, of Newport, is to be private secretary to Senator Deboe. It has been said by many that Senator Deboe cannot talk. The difficulty is solved. With Hon. W. W. Lyons as his secretary he will not need to do any talking. Mr. Lyons holds the Kentucky record in that line.

From a political standpoint the announcement of Mr. Lyon's appointment is really sensational. It was almost wholly through Governor Bradley's influence and efforts that Senator Deboe was elected. Lyons is Hunter man, and about the most outspoken and bitter enemy Bradley has in Kentucky.

He refuses to affirm or deny the report of his appointment.

ATTENTION, comrades. Major Walsh will be at the G. A. R. hall to-morrow morning early to fix up your pension voucher. For the good of the post.

COURT OF APPEALS DECISION.

Bland Versus the American Fire Insurance Co.—Winfield Buckler Against Belle Breen.

In affirming the case of F. P. Bland against the American Fire Insurance Company, taken up from Robertson County, the Court of Appeals says:

1. In an action to recover \$1,000 for loss under an insurance policy the words "they then and there waived formal proof of loss required by the terms of the policy" (meaning the insurance company, waived, &c.), having been stricken from petition upon motion of defendant, the answer of the defendant denying that the company waived formal proof of loss, and setting out the requirements of the policy as to how and when proof was to be made, and a verdict for the petitioner upon the question of waiver of formal proof, cured the defect of petition, if any, in this regard.

2. Where an action is instituted before the Statute of Limitation has run, against "The American Insurance Company" and service of summons is quashed and plaintiff amends so as to make his petition read as against "The American Fire Insurance Company," the proper name of the corporation, the action is instituted before the statute has run, though the amendment came after the statute had run, as the omission of the word "fire" from the name of the corporation could not properly be held as in effect no suit against the corporation.

3. The waiver of formal or preliminary proof of loss under a fire insurance policy need not be in writing.

The case of Winfield Buckler against Belle Breen, also from Robertson, was reversed. The court says:

1. The obligation of a husband to support his family is paramount to that of paying his debts; and such support involves the provision of a home to shelter, as well as raiment to clothe or food to sustain life.

2. Where a suit is brought by plaintiff to subject a house and lot worth \$500, to payment of husband's debt amounting to \$120, the legal tie being in the wife, and plaintiff alleging that the conveyance from husband to wife was voluntary and fraudulent; and where it is clearly established that the house and lot was paid for with \$324 borrowed from bank, the bank holding first mortgage, \$160 donated by friends of the wife to her, and the balance \$160, saved for the support of his family, and where the amount in controversy was not greater than what would have been required to pay rent for another house, a conveyance from husband to wife is not fraudulent within the meaning of the statute.

3. The court erred in such case, in failing to adjudicate the wife entitled to the entire proceeds arising from a sale of the house and lot, after satisfying mortgage of the bank.

THE LIEN LAW.

Judge Helm Hands Down an Important Decision in the Circuit Court at Newport.

Judge Charles Helm, of the Campbell County Circuit Court of Newport, handed down a very important decision Saturday. The opinion is in reference to the mechanics' lien law. It deals directly with contractors—subcontractors of all kinds—in fact, every one who is in any way connected with the construction of buildings, &c.

The case in point was styled: "St. Clair Glasmeyer vs. Isabella Gibbs et al."

An extract from the opinion is as follows:

"The question involved in this case is the constitutionality of so much of the act of March 21, 1896, as gives to a subcontractor a direct lien on the property improved, independent of the state of account between the owner and the original contractor.

"Heretofore in this State the subcontractor was allowed a lien by substitution to the original contractor; he was required to give notice to the owner, and upon notice the owner was required to retain from the original contractor enough to satisfy the subcontractor, if there was anything due or to become due the original contractor. Now the statute in question gives to the subcontractor a lien, though the owner may have paid the original contractor in full, limited only by the contract price of the original contract."

Judge Helm then gives a comprehensive technical consideration of the amendment, discussing its provisions as related to the bill of rights in the Kentucky Constitution. He holds that the law, or rather the amendment, restricts the improvement of land, since a man may not take the advantage of paying cash for work without also assuming the liability of having to pay twice for some part of the work, because of the failure of the contractor to carry out his agreement with a subcontractor. Therefore the amendment is declared unconstitutional.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's agent, Columbus, Ohio, certifies Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind. testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves.

JOHN H. WARRS, aged eighty-four, died penniless in the Eastern Kentucky Lunatic Asylum Friday. He was formerly the wealthiest clothier in Lexington, at one time worth over a quarter of a million. He has no relatives who will claim his body, and it will be buried in the pauper burying ground adjoining the asylum.

THE Chicago Free Coinage Journal says: "The Willoughby Hill clothing firm of this city recently failed for \$81,000. This is the company that put a barrel of Mexican dollars in their window during the campaign and sold the for 50 cents each. Creditors would now, probably, be glad to get them at par. The object lesson proved a boomerang."

THE Supreme Court of Ohio decides that, "In the administration of tax laws the holder of national bank shares has no right under the statutes, State and national, to deduct his legal bona-fide debt from the value of such shares, but he is legally bound to pay taxes upon the assessed value of such shares, without deduction on account of such debts."

LEXINGTON HERALD: "The Oddfellows are still working with their subscription papers trying to raise the \$20,000 required to secure the establishment of the Widows' and Orphans' Home for Lexington. They have been untiring in their efforts, and it is thought that the amount will be raised before May 1st, the day set for the return of the subscription papers."

THE Richmond Locomotive Works is experimenting with a compound locomotive on what is known as the Mountain Division of the Chesapeake and Ohio railroad. It is being tested with a view of making fast time on this section of the railway, and thus far the results have been successful. During one trip recently it pulled a train of Pullman cars for six miles at an average speed of one mile every fifty-six seconds, the fastest mile of the six being made in fifty-two seconds.

Wm. Carter was lodged in jail at Harrodsburg Saturday. It is said that he is a member of the toll-gate raiders, and was with the gang that set fire to a toll-house four weeks ago in Mercer County, and shot Keeper Atkinson as he came from the burning building. He is one of the best known farmers in that county. The Sheriff had a number of other warrants, but the parties were evidently in hiding. Detective Kimball, a Pinkerton man, has been in the county for some weeks, and it is said he has a list of the raiders.

THE farmer with a yard full of cattle is again "on top." On the other hand the man who sacrificed his cattle when they were cheap, plowed up his blue grass and went to corn growing, has cribs full of property of little value. 'Twas ever thus. Those who hold fast to good live stock through good and through evil have their certain reward. What we see on American farms is more steadfastness of purpose; more patience and more faith in our herds and flocks; fewer "booms" and fewer "stampedes."—Breeders' Gazette.

THE question involved in this case is the constitutionality of so much of the act of March 21, 1896, as gives to a subcontractor a direct lien on the property improved, independent of the state of account between the owner and the original contractor.

"Heretofore in this State the subcontractor was allowed a lien by substitution to the original contractor; he was required to give notice to the owner, and upon notice the owner was required to retain from the original contractor enough to satisfy the subcontractor, if there was anything due or to become due the original contractor. Now the statute in question gives to the subcontractor a lien, though the owner may have paid the original contractor in full, limited only by the contract price of the original contract."

Judge Helm then gives a comprehensive technical consideration of the amendment, discussing its provisions as related to the bill of rights in the Kentucky Constitution. YOUR SPRING SUIT

Is the topic of our thoughts as well as yours just now; in fact we have been getting ready for you. The result is we're showing to-day the finest line of high grade Custom Tailor-Made Suits you or anybody else ever saw in a tailor shop or out of one.

OUR CLOTHING

is not the ordinary ready-made, but made especially for US. It is different from other Clothing, for we don't buy what the generality of manufacturers make—the clothes that are made like shingle nails—the kind most dealers buy—not we. We know what we get

AND YOU KNOW WHAT YOU ARE GETTING WHEN YOU PURCHASE CLOTHING OF US

That's why there is more Style, more Character, more Fit, Fashion and Finish in our \$15 Suits than in many merchant tailor's \$35 Suit. Our line this season is the finest we ever displayed in fabrics, patterns, workmanship and up-to-date styles. Our best and most desirable Suits range in price from

\$8.00
.....TO.....
18.00

and whichever of these prices you pay you will get a better outfit for the money than any other house in the State will furnish you.

CITY TAXES.

THE FRANKFORT CAPITAL THINKS MUNICIPAL REVENUE SHOULD BE RAISED BY LICENSES.

[Frankfort Capital.]

THE NECESSITY FOR AN AMENDMENT TO THE CONSTITUTION PERMITTING MUNICIPAL CORPORATIONS TO SUBSTITUTE LICENSE FOR AD VALOREM TAXES FOR MUNICIPAL PURPOSES IS RECOGNIZED BY ALL WHO HAVE ANY ACQUAINTANCE WITH COMMERCIAL AND MANUFACTURING INTERESTS. UNDER THE BURDEN OF THE AD VALOREM TAX SYSTEM, THE BUSINESS INTERESTS OF KENTUCKY ARE BEING RUINED.

IF THE BUSINESS MEN OF THE STATE WILL INAGURATE A VIGOROUS AND INTELLIGENT CAMPAIGN, THEY CAN SECURE THE ADOPTION OF THE NECESSARY CONSTITUTIONAL AMENDMENT. THE MATTER OUGHT TO BE PRESENTED TO EACH OF THE POLITICAL STATE CONVENTIONS, AND THERE WILL BE NO TROUBLE EXPERIENCED IN SECURING AN INDOREMENT IN THE PARTY PLATFORMS.

IF, HOWEVER, THE MATTER IS ADVOCATED INDEPENDENTLY OF PARTY POLITICS, THE AMENDMENT MAY FAIL. THOSE WHO ARE INTERESTED WILL HAVE TO ATTEND TO THIS MATTER AND THEY WILL DO WELL TO CONSULT WITH THE LEADING PRACTICAL POLITICIANS OF THE VARIOUS PARTIES, AND SECURE THEIR CO-OPERATION.

CONFEDERATE VETERANS.

A Circular Letter From Major John Boyd, Commanding the Kentucky Division. Nashville Reunion.

Postmaster Chenoweth, Major and Adjutant General of the Kentucky Division, United Confederate Veterans, is in receipt of the following:

LEXINGTON, KY., April 24, 1897.

To the Members of the Kentucky Division, United Confederate Veterans—Comrades: As the Commander of this division it is my duty and privilege to call your attention to the approaching meeting of the United Confederate Veterans at Nashville, Tenn., on June 22nd, 23rd and 24th, and urge you and all other Confederate So diers in the State to attend. This promises to be equally as interesting and enjoyable as any of these pleasant meetings and I assure you that you will come away feeling that the small outlay was well expended, and hope the various Camp Commanders will interest themselves in bringing the meeting prominently before the Confederates of their county, to the end that this division will in no way suffer by comparison in numbers with any other division. The railroads promise unusual liberality in rates, and Nashville will do all in her power to care for all in a way commensurate with her known hospitality. It is to be hoped that the Commanders will take the matter promptly in hand and report without delay the number who will attend this reunion. Reports can be made direct to these headquarters or to either of the Department Commanders, who will give the matter prompt attention; the committee in charge at Nashville will be notified and comfortable quarters provided at the smallest possible cost.

Hoping for your hearty co-operation, and for a large attendance at Nashville, I am, fraternally,

JOHN BOYD, Major General, Commanding Kentucky Division.

Seems as if consumption always picks out the brightest and best. Fully one-sixth of all the deaths that occur in the world are caused by consumption. Many things were once considered impossible. It would be strange if medical science did not make some progress. The telegraph and telephone, the phonograph, the electric light—all were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is caused and fostered by impurity and richness in the blood—surely, certainly cured by the "Medical Discovery." It builds up solid healthy flesh and vigorous strength.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover postage only. Address, World's Dispensary Medical Association, Buffalo, N. Y.

CINCINNATI TOBACCO MARKET.

The Tendency Last Week More Favorable. Limited Offerings and an Increase in Prices.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for the week has the following:

The tendency of the tobacco trade the past week has been more favorable and there was some advance. The limited offerings are causing a stronger competition among the manufacturers' buyers, and while the increase in prices is small there is a better demand, and offerings are hardly sufficient to meet it. The season between the winter and summer order tobacco always causes some advance, as the shipments are limited and a large portion of the sales and old stock carried over, and it is always a good opportunity to close out before it goes into the second sweat and the redried new comes into competition.

The market started very firm on Tuesday and prices were the best of the week. It weakened some on Wednesday, but rallied again on Thursday, and closed on Friday with very small offerings and satisfactory sales to all shippers.

New red tips and medium leaf were very active all the week, and color low grades were in demand at some advance. Very little of the better grades was on the market, and therefore it would be a hard matter to distinguish much difference in them.

The future of the tobacco market depends largely upon the future competition of the manufacturers. If they continue to see who can make the largest piece of tobacco for the least money they will be obliged to keep prices of leaf tobacco low, and we can not expect much advance in the future, but should there be an increase in the demand for better grades of chewing tobacco it would invite more competition, and the tobacco market would improve, which we sincerely hope will be the result. The decrease in the growth of tobacco, which is talked so much about, would not affect the trade very much unless there was a scarcity, but a better grade of leaf, properly cultivated and handled, with a limited decrease, is what should be aimed at by our growers in order to place the trade on a good, sound footing, and to make it more profitable to the farmers.

We can only expect limited offerings for the next two weeks, and holders of old tobacco should not let the opportunity pass to dispose of their old stock.
